FINDING BOOKS AND OTHER LIBRARY MATERIALS

OBIS is the Oberlin College Library's online catalog; it lists most library materials. Online borrowing is available through the **OhioLINK Library Catalog**, which combines the holdings of 120 libraries at Ohio colleges and universities, and through **SearchOhio**, which does the same for 28 Ohio public library systems. All three catalogs are searchable by **Author** or **Title** for a specific author or work, or by **Subject Heading** or **Keyword** for works about a topic, person, place, etc.

For subject Heading searches – selected useful Library of Congress Subject Headings:

Search for the names of specific cities, e.g.,

Alexandria (Egypt)	Istanbul (Turkey) [i.e., Constantinople, Byzantium]
Antioch (Turkey)	Pylos (Greece) [i.e., Pilos, Navarino]
Bergama (Turkey) [i.e., Pergamon, Pergamum]	Tadmur (Syria) [i.e., Tadmor, Palmyra]

Add "Antiquities," "Buildings, structures, etc.," "Civilization," "History," or "Maps," after geographic subject headings: "Alexandria (Egypt) -- Buildings, structures, etc.," "Turkey – Antiquities," "Egypt – Civilization," "Greece – History," etc.

Africa, North	Greece	Syria
Balkan Peninsula	Mediterranean Region	Turkey
Egypt	Middle East	

Add geographical subheading after these subject headings, e.g., "Architecture – Syria," "Temples – Greece," etc. Or add "History" as a topic sub-heading.

Archaeological sites	City and town life	Public spaces
Archaeology	City planning	Temples
Architecture	City-states	Urbanization
Architecture, Domestic	Excavations (Archaeology)	
Cities and towns	Extinct cities	

Search for more generic subjects about ancient cultures, cities, architecture:

Architecture, Ancient	Architecture, Roman	Civilization, Greco-Roman
Architecture, Classical	Cities and towns, Ancient	Classical antiquities
Architecture, Egyptian	Civilization, Ancient	
Architecture, Greek	Civilization, Classical

- draws from OBIS, OhioLINK, many full text and article indexing databases, and digital repositories from colleges, universities, research centers, and other open-access archives
- Subject-specific databases are generally better for complex or comprehensive searches
- OBIS and OhioLINK are generally better for finding books
- if links don't lead to full text, be persistent or ask for help; we probably *do* have access
