

GENDER NEUTRAL PRONOUNS

There are two sets of commonly used gender-neutral pronouns:

sie, hir, hir, hirs, herself
zie, zir, zir, zirs, zirsself

So instead of.....you may use.....which is pronounced.....

he/she	sie zie	"see" "zee"
him/her	hir zir	"here" like "sir" with a
his/hers	hirs zirs	"here's" like "sirs" with a
himself/herself	herself zirsself	"here-self" like "sir-self" with a

Note: It is often also acceptable to use the third person plural (they, them, their, themselves) instead of the third-person singular (he/she, his/hers, him/her, himself/herself) when referring to someone who has not expressed a clear pronoun choice.
