Dear Dr. Lehman,

Oberlin College wishes to apply for reaccreditation according to the Ohio Department of Education procedures.

The College recognizes the Music Education Division as the unit for governance of the teacher preparation program in the conservatory of Music. This implies that the Music Education Division has adopted and implements policies regarding hiring and promotion of faculty, budget needs, affirmative action and diversity plans, recruitment, selection and retention of students and finally a systematic plan of assessment of the program and its students. Oberlin College is in full support of this program

Sincerely,
