

2009-10 Family Contribution Worksheet

This form is for personal use and does not need to be returned to Oberlin.

This worksheet will help you determine the amount of Oberlin College charges that you and your family will be responsible for in the coming academic year. It is intended only to assist you in planning and is not an exact calculation.

This worksheet is based only on direct charges and does not consider indirect expenses. Therefore, in addition to planning for your family's contribution to direct costs, you will need to plan for indirect expenses such as books, supplies, travel, and personal expenses.

Estimate Your Direct Expenses *(charged by Oberlin)*
