

Your WageWorks account gives you a variety of payment options to choose from.

*WageWorks*® makes it easy for you to use the money in your healthcare benefit accounts to pay for hundreds of eligible expenses.

### These payment options are fully automated.

Log in to your *WageWorks* account on either the web portal or the *EZ Receipts*® mobile app by *WageWorks*, select your preferred payment option and follow the prompts.

# Healthcare Payment Options

## The Pay Me Back Option.

If you've already paid for an eligible expense out of your own pocket, you can arrange to pay yourself back from your *WageWorks* account in two ways:

1. Have a check mailed to you; or
2. Have your reimbursements deposited directly into your bank account.

The quickest, easiest way to get reimbursed for eligible expenses you've paid out of pocket is to sign up for direct deposit.

You can submit a Pay Me Back claim via the web portal, *EZ Receipts* mobile app or by fax or mail.

Most Pay Me Back claims are processed within one to two business days after they are received and verified. Payments are sent shortly thereafter.

## The Pay My Provider Option.

You can arrange to pay your healthcare providers directly from your *WageWorks* account for your eligible expenses.

## The Pay by Debit Card Option.

You can also use the convenient *WageWorks* Healthcare Card associated with your *WageWorks* account to pay for hundreds of eligible healthcare products and services.

Your *WageWorks* Healthcare Card works like a debit card. Money is deducted directly from your account. If you have more than one *WageWorks* account, this smart card knows which account to draw money from first.

As with every payment option, be sure to save your receipts for all Healthcare Card transactions. Log in to your *WageWorks* account to find out if you need to submit receipts to verify card transactions and to store digital copies of your receipts.
